Weissenbach, 24.06.2022

„For immediate release.“

Polytechnik recapitalised and under a new ownership structure.

Dear valued customers and business partners!

We are delighted to announce that Polytechnik Luft- und Feuerungstechnik GmbH's restructuring plan was accepted by its creditors with an overwhelming majority and confirmed by the court's order of April 26th, 2022. Following the acceptance and court order, the Regional Court of Wr. Neustadt subsequently finalised the restructuring procedure on June 20th, 2022.

As a company with a longstanding tradition and a global technology leader in biomass combustion, wood gasification and carbonisation systems, we are pleased to announce that Vienna-based Sustainable Future Investments GmbH, a company of the H.K.L. private trust, has become Polytechnik's new majority shareholder.

With Sustainable Future Investments GmbH on board, we will successfully implement the restructuring plan, secure engineering and manufacturing sites and the jobs within the company, and strategically reposition our company in the market.

Under the new ownership structure, Lukas Schirrhofer and Heinz Grossmann will take over management of Polytechnik Luft- und Feuerungstechnik GmbH.

With 240 employees in the business, the newly expanded headquarters in Weissenbach a.d. Triesting, Austria, our production sites in Hungary and Romania, the joint venture production site in China and our worldwide sales representations and networks, Polytechnik is well prepared for today's challenges and is looking forward to working with you, our valued customers and suppliers, towards a sustainable, clean and secure heat and energy supply as well as global climate protection.

Our customers can continue to rely on and trust our progressive, efficient and CO₂-neutral technologies and our professional service and support.
